

OpenAire Inc. is a leading custom designer and manufacturer of retractable roofing and skylight systems. Our Team designs, manufactures and installs OpenAire's Custom Product for customers throughout North America and Europe. Our culture is entrepreneurial, fast paced and embraces change. From the first interview, we consider each person's desire and potential to learn, grow and lead. OpenAire offers an inviting work environment, competitive salaries, and an excellent benefits package.

Our Team is currently looking for a Construction Project Manager to oversee Global projects.

The Construction Project Manager is responsible for the management of design, production and installation processes for OpenAire projects. Successful project managers exhibit excellent analytical abilities, creative problem solving skills and strong planning and organizing capabilities. Additionally they must have excellent leadership, negotiation and mediation skills, and have the ability to work with all levels of the organization as well as clients, engineers, architects & contractors.

Skills:

- Excellent skills in contract negotiation, project co-ordination and scheduling, managing internal clients and external partners and consultants, project costing and accounting.
- Exceptional skills in managing multiple projects simultaneously.
- Excellent skills in design and construction, cost estimating and design planning.
- Outstanding project management skills including the ability to build and monitor budgets and appropriate cost control measures.
- Exceptional interpersonal skills and the capability to effectively work with a diverse group of individuals.
- Related computer applications AutoCAD, MSPROJECT, MSOFFICE.

Qualifications:

Minimum Diploma in Architecture, Project Management or Engineering with 10yrs of professional experience.

OpenAire is an Equal Opportunity Employer.
